# our *mission*

We work with couples who value atmosphere over formality, and who want their wedding to feel thoughtfully designed, personal and well executed.

Emma Jordan Weddings offers calm, design-led planning with a focus on clarity, organisation and trust. Our role is to guide you through the process, manage the detail, and bring everything together seamlessly, so you can enjoy planning without feeling overwhelmed.

By taking on a carefully managed number of weddings each year, we're able to offer a high-touch, considered service, built on strong communication and a collaborative approach.

# what to *expect*

Choosing a wedding planner is a big decision. Our role is to bring clarity, structure and calm to the process guiding you through each stage with confidence, creativity and care.

From our first conversation to the final moments of your wedding day, you can expect a considered, collaborative approach and clear communication throughout.

## **FREE FIRST CONSULTATION**

Our first conversation is an opportunity for us to get to know each other and ensure we're the right fit. We'll talk through your plans, priorities and vision, and you'll have the space to ask questions about how we work and what support will best suit you.

## **PLANNING FOUNDATION**

Once booked, we'll begin by establishing a clear planning framework. This includes understanding your key priorities, building a realistic timeline, and outlining the next steps so you always know what's coming up and when.

From here, the process feels structured, manageable and well paced.

## **ON-GOING SUPPORT & GUIDANCE**

Planning unfolds over time, and our support is designed to do the same. You'll receive regular check-ins, professional guidance, and clear direction as decisions are made - from suppliers and logistics through to the overall flow and feel of the day.

We work collaboratively, while confidently leading the process.

## **WEDDING DAY TIMELINE**

As your wedding approaches, we'll bring everything together into a detailed, personalised wedding day timeline. This ensures all suppliers are aligned, the day flows seamlessly, and nothing is left to chance.

## **WEDDING DAY MANAGEMENT**

On the day itself, our focus is execution. We manage suppliers, oversee logistics, and ensure the plans you've made are delivered exactly as intended — allowing you to be fully present and enjoy every moment.

# Full Wedding *planning*

A woman with long dark hair, wearing a dark top and a headband, is shown in profile from the chest up. She is holding a large, lush bouquet of flowers. The bouquet features several large, light pink roses, smaller white flowers, and long, trailing greenery with small white bell-shaped flowers. The background is a large window with white frames, looking out onto a bright, green, out-of-focus outdoor scene. The overall lighting is soft and natural, coming from the window. A pink rectangular box is positioned at the top center, containing the text 'emma jordan'.
